SOMAPHARM AG

MISSION – COVID-19

Somapharm AG, being an internationally acknowledged medical investment product supplier, taking instant responsibility to act against COVID -19 pandemic that is spreading globally and causing worldwide shortages of essential medical and hygiene supplies.

Our aim is to ensure these essentials continue to reach the public, institutional and governmental buyers at a sensible price. We operate following all relevant ISO, EN codes and guidelines in our headquarters.

Currently shipping exclusively with Express Service throughout Europe.

As the pandemic develops across Europe and globally, we aim to offer the most suitable, relevant and cost effective items for those seeking to protect themselves and their loved ones.

Somapharm's main target is to ensure anyone who needs it can quickly access at least the most basic medical and hygiene products. Currently we can commit to supply this service in Europe and we are working towards a global platform.
