## SOMAPHARM AG VENTILATOR – PARTNERS & SUPPLIERS

Somapharm AG aims to help you meet ICU medical challenges forced by COVID-19.

Our selected, all EN - certified international premium suppliers offer outstanding ventilators, which are configurable, upgradeable and stand any test.

The selected ventilators offer many recognised ICU ventilation modes as standard – including non-invasive ventilation and high flow oxygen therapy.

We are committed to guarantee you the best service and maximum support at every point to assure best patient outcomes and clinical workflows.

## SOMAPHARM AG MISSION – COVID-19

Somapharm AG, being an internationally acknowledged medical investment product supplier, taking instant responsibility to act against COVID -19 pandemic that is spreading globally and causing worldwide shortages of essential medical and hygiene supplies.

Our aim is to ensure these essentials continue to reach the public, institutional and governmental buyers at a sensible price. We operate following all relevant ISO, EN codes and guidelines in our headquarters.

Currently shipping exclusively with Express Service throughout Europe.

As the pandemic develops across Europe and globally, we aim to offer the most suitable, relevant and cost effective items for those seeking to protect themselves and their loved ones.

Somapharm's main target is to ensure anyone who needs it can quickly access at least the most basic medical and hygiene products. Currently we can commit to supply this service in Europe and we are working towards a global platform.
